*Mineral Mud Bath*

This natural volcanic mud is a result of the thermal energy sourced locally. Mineral Mud Baths like this have been done for centuries. They are believed to relieve stress, purify, exfoliate and soften the skin.

*Cultural Experience*

To experience Costa Rica is to experience the culture of Costa Rica. At Vandara, you can walk the orchards, and explore the organic garden; you will meet Carmelo, and our local team will show you how sugar cane is processed, and provide local baked goods, coffee and more.
